**Freight Pick-up & Delivery
throughout North America
Toll Free 1-800-387-3971**

KWE was honored as a recipient of the prestigious '2008 Quest for Quality Award'.

GPS Tracking

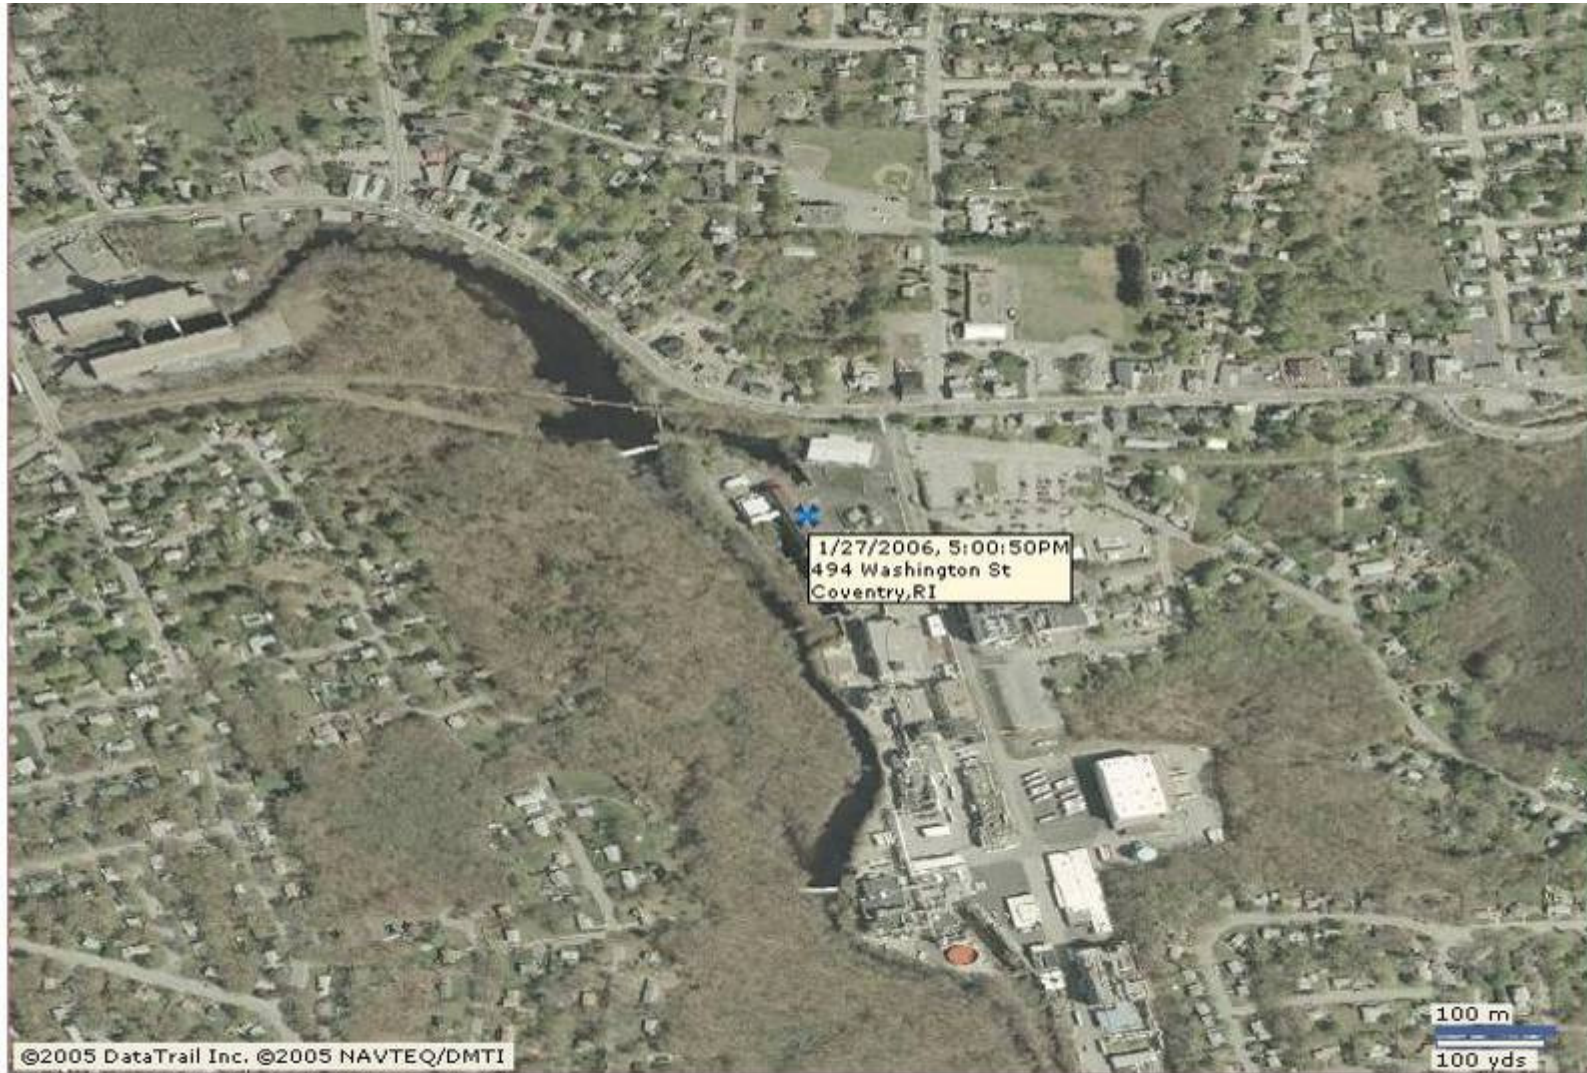

KWE Canada offers a covert GPS tracking service. The covert unit placed within the FTL or LTL load and tracked via the internet 24/7

The screenshot shows the FreightWatch International (fwi) web interface. On the left, a 'Select Item(s)' tree lists various assets, with 'ODE' under 'Insight Trial' selected. A callout box points to this selection, stating: "The tracks for device 'ODE' appear to the right." Below the tree, search filters are set for 'From: 11/17/2005 18:30' and 'To: 11/18/2005 14:30'. A 'Go' button is visible. The main 'Results' area displays a map of the United States with a blue tracking path. A callout box points to a specific location on the path, stating: "Device 'ODE' is a PT200 packaged on a pallet of computers being transported from Austin, TX to Nashville, TN." Another callout box points to the search filters, stating: "Advanced time period setting shows all location between a 'From' and 'To' date and time." The map includes a scale bar (100 km / 100 mi) and a 'Print' button. The bottom right corner of the interface reads "Powered by DataTrail, Inc."
