# Track and Trace

By understanding your shipment flow process, KWE can minimize delays and potential unexpected costs with regards to demurrage, detention, and storage charges.

- ❖ **Delivered to Rail at Origin:** Allows us to estimate arrival time at the Transload Facility.
- ❖ **Arrived Transload Facility:** Allows us to monitor the free time on the rail car to limit the risk of rail demurrage and detention and insure empty containers are available to load product.
- ❖ **Unloaded from Railcar:** Confirms railcar release and also allows for any required adjustment to booking
- ❖ **Container Loaded:** Confirms that the container is loaded and VGM can be confirmed and sent to Carrier
- ❖ **Delivered to Port:** Confirms Delivery
- ❖ **Sailed:** Confirms container has sailed.
